SUMMARY

Aerospace Engineering student at the University of Maryland, focusing on propulsion and autonomous systems. My work spans swarm robotics prototypes and MATLAB/Python simulations for multi-agent coordination, which has pulled me toward the intersection of controls, simulation, and AI applications in aerospace.

EDUCATION

University of Maryland - College Park, MD Aug 2026 - May 2029
B.S. in Aerospace, Aeronautical, and Astronautical Engineering

George Mason University - Fairfax, VA Aug 2025 - May 2026
B.S. in Aerospace, Aeronautical, and Astronautical Engineering

RESEARCH EXPERIENCE

Autonomous Systems and Aerodynamics Researcher Oct 2025 - Present
Mason Autonomy and Robotics Center
Conduct research on decentralized coordination algorithms for swarm robotic systems. Analyze system behavior, scalability, and robustness through simulation and experimentation, applying aerodynamics and autonomous systems principles to real-world coordination problems.

VASTS Aerospace Science Scholar Dec 2023 - Mar 2024
Program Member
Completed advanced STEM projects during a seven-day residential academy at NASA Langley Research Center through the Virginia Aerospace Science and Technology Scholars program.

STUDENT ORGANIZATIONS

Aerodynamics Team Lead Oct 2025 - May 2026
George Mason University Formula SAE
Lead aerodynamics development for GMU's FSAE team. Perform CFD analysis and aerodynamic component design, coordinate with mechanical and manufacturing subteams, and contribute to performance testing and competition preparation.

Member Nov 2025 - Present
The American Institute of Aeronautics and Astronautics (AIAA)
Engage in aerospace engineering projects, technical workshops, and industry networking events. Participate in activities focused on applied aerospace concepts and professional development.

President and Lead Engineer Sep 2023 - Jun 2025
Phoenix Motorsports Formula SAE
Co-founded and led a student FSAE program from the ground up. Directed vehicle system design, engineering analysis, and cross-team integration. Managed technical decision-making and ensured compliance with FSAE regulations.

PROFESSIONAL EXPERIENCE

Order Fulfillment Associate Apr 2025 - Nov 2025
Home Depot
Processed customer orders accurately in a high-volume warehouse environment. Operated inventory management systems to locate and fulfill merchandise with strong attention to detail.

TECHNICAL SKILLS

Software
SolidWorks, AutoCAD, Autodesk Inventor, Fusion 360, OnShape ANSYS, VS Code, Git, Github, Render, Figma

Programming Languages
Python (Pandas, NumPy, Plotly, Flask, scikit-learn), MATLAB, Java, Typescript, HTML, LaTeX
